Experience

.Net Developer – Eulogika s.r.l.

Nov 2017 - Present
4+ Years

I work as a software developer for a 1-10 person software house.
Most relevant activities are:
- Winform application for data acquisition and analysis for foundries: development, bugfix, first installation, updates
- Asp.core app for trade certificates: development and bugfix back and front end
- Winform app as an Erp for small businesses (mainly Pcb manufacture)
- Winform app to import data from csv, txt or any database into sqlserver databases
To summarize: winform applications (80%) asp.net/asp.core(20%).
Tools: C#, Visual Studio, Devexpress, Entity Framework, Linq, Sql Server, SSMS, Svn, Wrike.
